

Calibration and Service of Agilent Flow Tracker 1000 and 2000

TrigasFI GmbH is a **DKD** accredited Flow Measurement and Calibration Laboratory located in Munich, Germany. We specialize in **Gas and Liquid** flow metering and calibration applications for all different types of flowmeters. We are **ISO 9001 :2000** certified, **DIN EN ISO/IEC 17025 :2000** accredited and maintain **NIST, PTB** and **BNM** traceability.

Please follow the link below to our web site for a description of the calibration and repair services that we offer:

<http://www.trigasfi.de/en/services/services.htm>

To download our general brochure in PDF format please go to:

http://www.trigasfi.de/pdf/TrigasFI_English.pdf

We are trained and qualified to service and calibrate the following **Agilent** Flowmeter models:

Flow Tracker 1000 (p/n 5183-4779)

Flow Tracker 2000 flowmeter with leak detector (p/n 5183-4780)

Prices for 5-point calibration (including Traceability Certificate, a € 10.00 value) are:

Flow Tracker 1000 € 215.00 per unit with Traceability Certificate

Flow Tracker 2000(*) € 235.00 per unit with Traceability Certificate

Optional extra points are charged at € 15.00 each.

DKD/ISO 17025 Certificates are available with a 40% surcharge

* - Includes Leak Test check and adjustment

The prices above do not include repairs of any equipment which upon incoming inspection is found to be faulty. In such cases a cost and delivery estimate will be submitted for approval before proceeding with any repairs.

Turn-around time

Standard turn-around time for calibrations is one week (5 work days).

Emergency 1-2 day service is available. Please consult our lab (details below).

If repair is required, turnaround time may be extended.

Terms

Payment is strictly 30 days net

Ex-Works Neufahrn (Munich) Germany.

Typical cost of shipping 1-5 units by courier to most European destinations is € 15-35.

Shipping Instructions

You may contact us and request an RMA number before sending your flowmeter(s) to us.

Alternatively, you may simply forward us a copy of your packing list or AWB so that we can track your shipment upon arrival at our facility. Our shipping address and contact details are shown below.
